

Remarks

Claim 60 has been amended so that a wall enclosure in the dependent Claims 62 and 94 can be included. The walls in Claims 62 and 94 prevent an insect from penetration. The impenetrable property of the walls is equivalent to a previously allowed Claim 60. The previously allowed Claim 60, filed in the Amendment H of 1/17/07, describes an enclosure which is formed by a plurality of flexible strips interlinked together by a plurality of short flexible strips.

Claims 64 and 66 are amended. Claim 67 is canceled.

The currently amended Claim 71 is now reverted to a form similar to the previously allowed Claim 60 which is allowed in your Office Action of 04/06/2007.

Claims 80, 81 and 90 are canceled. Claims 83 and 89 are amended.

A new Claim 91 which is dependent on Claim 71 has been added. The trap comprising a plurality of tines mounted outwardly from the enclosure is the same as the trap specified in the previously allowed Claims 63 and 71 which are allowed in your Office Action of 04/06/2007.

The crawl path in the new dependent Claims 92 and 93, which are respectively dependent on Claims 60 and 71, is constituted by a plurality of deflectable strips.

A new dependent Claim 94 describes a one of the walls which is to be made of translucent material to provide sufficient light into the enclosure (spec., Pg. 14, line 11).
